SCA2027

IS A MAJOR INTERNATIONAL CONFERENCE ON THE GLOBAL HIGH PERFORMANCE COMPUTING (HPC) CALENDAR AND A KEY MEETING PLATFORM FOR THE REGIONAL AND GLOBAL SUPERCOMPUTING COMMUNITY.

Taking place from **1 to 4 March 2027** in Singapore, SCA2027 will bring together thought leaders, researchers, decision-makers, industry professionals and technology partners from across the research, industry and public sectors.

Over the years, SCA has grown into an important forum for the exchange of knowledge, ideas and expertise in advanced computing. As the convergence of **HPC, artificial intelligence (AI), quantum computing and other emerging technologies** opens new possibilities for research and innovation, SCA provides a platform for the community to explore these developments and their potential impact. Through keynote presentations, technical tracks, exhibitions and networking opportunities, the conference facilitates the sharing of emerging trends and technological advances while fostering new connections and collaborations across disciplines and sectors.

Building on the strong momentum and international engagement of the past editions, the supercomputing community will reconvene in Singapore for SCA2027. As advanced computing continues to evolve at an unprecedented pace, SCA2027 will spotlight the **ideas, technologies and partnerships shaping the future of HPC, AI and quantum computing**, while strengthening connections across the global advanced computing ecosystem.
